

ARE GETTING TIRED

Council and People Want Street Railway.

BURDETTE BUYS OLD LINES

What Mr. Goddard Proposes to Do.

There is a good deal of doubt, from all that can be learned, that any final apparatus necessary to consume the hyphen at the council meeting tomorrow evening.

The temper of the people of Wichita and their representatives, the councilmen, is about taxed to the limit in the street car matter.

The present system is a disgrace. Everybody is anxious to get it out of sight and out of mind, and, if possible, out of memory.

It appears that some action was likely at the next meeting of the council. Mr. Scott has a proposition before the council. Mr. J. O. Davidson will represent Mr. Goddard and Mr. Winer, who are here also after a franchise. Day before yesterday Mr. Burdette of Boston secured an option on the present street railway from Mr. Batchelder, for how long or of what nature is not known. Mr. Burdette is the gentleman who put up the \$10,000 for some time ago. It is said he will be in the city Monday with a proposition. At any rate, he now has the road in his possession at least temporarily.

But the council is not going to stand any more dilly-dallying. They waited months and months on Messrs. Church and Ellis of Boston, with whom Mr. Burdette is said to be connected, and were dropped at the end of it all. The \$10,000 forfeited does not represent the damage done to Wichita by the failure to put in a decent railway system. The city does not want forfeits. It wants a street railway.

And the city is not bound to submit forever to the present ridiculous system. The present company has forfeited its franchise in the minds of all reasonable men. If it seeks now to further annoy and disgrace Wichita, it will find that the city's patience has been exhausted, and that streets belong to the municipality for the purpose of transit and not for the display of creeping beasts of junk.

As the matter now stands, Mr. Scott has an amended proposition before the council to accept.

Mr. Davidson, Mr. Goddard and Mr. Winer will ask for a franchise tomorrow evening, and Mr. Davidson said last evening that they would guarantee a first class system if they could get the streets.

Mr. Burdette is coming on from Boston with an option on the present system and a proposition, presumably.

Each has his adherents. Mr. Scott has a following. Mr. Davidson has worked hard for Wichita in the past and the people have faith in his assurances. No one has been more public spirited than he and hundreds would do for him secure the road and the interest of more eastern capital in Wichita.

Others would like to see Mr. Burdette given the franchise if he can assure the council that he will build the road without further delay.

But it is safe to say the council which has striven so hard to get the city a railway is not going to listen to further delay.

DIXON'S FLOUR TRAIN

Reported That It Went to Pieces in Chicago.

It is reported that Syl Dixon's flour train has come to grief in Chicago. The Baltimore and Ohio, which road was to pull the train from Chicago to New York, wouldn't pull the exhibit car without a payment of freight to equal that of any other car in the train, or full fare for all the men engaged as speakers and belonging to the band. No provision was made for any such stagger as this and it dumped all the plans. It is not known just what led to the misunderstanding. It was supposed that the Baltimore had agreed to have the train on some such terms as the Rock Island had made and that road was advertised in this connection. But when it came time for the train to leave the Baltimore and Ohio wouldn't pull any tinsel. They took the flour cars at full freight rates for their loads and that was all.

DOES AWAY WITH SMOKE

Rock Island Puts Smoke Consumers on Engines.

The Rock Island railroad has established a precedent in the west by equipping their engines with smoke consumers, which entirely do away with the heavy volume of black smoke which is so disagreeable to passengers. This experiment has been thoroughly tested during the past few months on their Colorado Flyer, and has proved to be such a success that the Rock Island has adopted it over its entire system and as soon as possible all their engines will be equipped with this new device and immediately put back into service.

This smokeless firing, as it is properly called, will be valuable to both the patron and the road. To the patron, it does away with the black, sooty smoke and cinders, thus adding much to the pleasure of traveling; and to the road, it is a saving in fuel, as well as making the appearance and equipment of the train up to date. The good results from this new equipment are unlimited and everything is favorable and for the best interests of all. To make this smokeless firing a success, two things are necessary: the equipment of the engine with the proper fire box. In each of these holes is an incandescent thrown off from the coal, and the thorough training of the engineer and fireman in the manner of firing and the best methods of proceeding at all times in order to obtain the desired results.

The manner of equipment is briefly as follows: In the fire box of the engine is built a hollow brick arch. Below this and about a foot above the grate, are bored four holes in the side of the fire box. These holes are connected by a thin pipe with the outside air, which is drawn in and after being heated is allowed to mix with the unburned gases or hydrocarbons. By this mixing the gases are transferred into a perfect state of combustion and in this state, they are

"Think of Ease But Work on."

If your blood is impure you may "work on" but you cannot even "think of ease."

The blood is the greatest sustainer of the body and when you make it pure by taking Hood's Sarsaparilla you have the perfect health in which even hard work becomes ease.

Hacking Cough—"I was troubled with dry hacking cough. One bottle of Hood's Sarsaparilla helped me and three bottles cured me and made me strong." George W. Bennett, Coolspring, Del.

Dyspepsia—"A complication of troubles, dyspepsia, chronic catarrh and inflammation of the stomach, rheumatism, etc., made me miserable. Had no appetite until I took Hood's Sarsaparilla—which acted like magic. I am thoroughly cured." N. B. Seelye, 1874 W. 14th Ave., Denver.

Hood's Sarsaparilla
Never Disappoints

consumed and thoroughly disposed of, thus preventing them from being forced out into the air as is the case today on nearly every railroad in the United States.

Assistant General Manager W. I. Allen and Superintendent of Motive Power G. T. Wilson of the Rock Island express themselves as more than satisfied with the results of this new move on the part of the road.

SANFORD'S BAND CONCERT

Music Will be Given in South Riverside Today.

Professor Sanford's Commercial band will render the following program in South Riverside park this afternoon at 4 o'clock:

March, True to the Flag.....Blou Selection, The Bartered Bride.....Semtana Overture, Mafiana.....Wallacy Waltz, Tales from Vienna Woods.....Strauss

March, Tempest.....Garfalia Professor Sanford has returned from a trip to the country, where he has been engaged to teach a band.

DIOCESAN CONVENTION

Will be Held in Wichita on September 25.

The annual convention of the diocese of Kansas will meet in St. John's church on the 25th and 26th of September. The Episcopal clergy of the state and lay delegates, members of the Women's Auxiliary and Daughters of the King especially appointed will be in attendance.

The Rt. Rev. Frank R. Mills, D. D., will preside. The consecration of the church will take place at the opening service, and the Rt. Rev. M. H. Gilbert, D. D., coadjutor, bishop of the diocese of Minnesota, has accepted the invitation to be the preacher.

There is no doubt that the Episcopals and their friends will do their utmost in the way of hospitality to make the delegates like our people and city.

SALOONISTS ARRESTED

Arkansas City Men Charged with Selling Whiskey to Indians.

Benjamin Conwell and Albert Blanchard, two saloon keepers at Arkansas City, were arrested by Deputy United States Marshal Trigg Friday night and brought to this city yesterday to appear before the United States commissioner. They are charged with selling liquor to Indian students of the Chilocco Indian school. Many charges of this character have been brought against Arkansas City jointists, as it is said the Indian students like their fire water pretty well.

Messrs. Conwell and Blanchard furnished bond for their appearance at the September term of the federal court, and returned to their homes yesterday.

AFTER LINWOOD VANDALS

Police Will Find Out Who Tore Up the Park.

The police authorities think they have a clue to the names of the people who tore up Linwood park. Two men have been working on the case and if the guilty persons are found they will be given the severest punishment possible.

Millage J. Shearer, No. 1745 Roddell avenue, is very sick.

Sturdy Children

Are Made So By

Grape-Nuts.

FOOD FOR CHILDREN.

Determined people will generally accomplish their aim if they persist. But simple "I will" is not enough.

One must enlist other forces, particularly health, and health is obtained from good food and a well-balanced mind.

Children, especially, should be given food known to contain the elements required by body for its proper building and rebuilding. Children fed on white bread, quantities of potatoes, candy and pie are sure to be "rickety" and a disappointment to their parents and themselves.

Children fed on Grape-Nuts and cream each day are supplied with a food containing all the food elements nature uses, except water and oxygen, and children so fed are sure to round out into sturdy, healthy and brainy young men and women, unless some unforeseen and exceptional bar arises. The delicate grape-sugar sweet of the food makes Grape-Nuts a prime favorite with young and old. Postum Cereal Co. Ltd., make Grape-Nuts at their Battle Creek factories and all first-class grocers sell them.

BIG VEIN OF COAL

Discovered Fourteen Miles East on Central.

OVER 2,700 ACRES LEASED

Harry Widdows Bores Into a 3 1-2 Foot Vein.

Mr. Harry Widdows, who resides fourteen miles east on Central avenue, was in the city last night and says that he has discovered a three and one-half foot vein of coal at a depth of eighty feet. So strong is he in the belief that he has struck a rich vein that he has leased 2,700 acres of land in the vicinity and will at once begin to develop the field. Mr. Widdows is interested with another gentleman who lives at El Dorado, and their original intention was to bore for gas. The work was commenced a few weeks ago and has progressed very satisfactorily with the modern boring and drilling machine they are using. When Mr. Widdows reached a depth of about seventy feet he noticed a peculiar color of dirt and mineral coming from the drill. The color kept getting deeper and richer, and when a depth of eighty feet was reached Mr. Widdows found that he was drilling into coal. He being an expert at locating coal mines in the east in an early day, at once recognized what he had got into, and immediately set about to secure a lease on the ground.

Mr. Widdows has local coal and mineral lands in the east for many years until he came west. He has located sixteen miles in Ohio, eight in Indiana and many in the Virginia. He has bored for both coal and gas in this state, and is pretty well satisfied with what he has discovered where he is working now. The coal coming in dust-like formation from the drill is a medium hard grade and is said to be superior to the Osage coal.

The finding of such a splendid vein of coal as Mr. Widdows reports so close to Wichita will be a big thing for this city and will give the city cheap fuel. It is understood that the prospecting for gas will go ahead, and there are splendid indications of gas in the vicinity of Mr. Widdows' present plant.

Whether or not Mr. Widdows will endeavor to interest capital in the development of his find is not known.

EARLIEST IN THE FIELD

The Dold Packing Company Is Out With Street Fair Design.

At the front window of the Parrott Art company is a large framed picture showing one of the designs which the local house of the Dold Packing company has under consideration for their booth for the street fair. The Dold company have ever been ready and prompt to respond to any enterprise in the best interests of the city and have shown a public spirit of care in their efforts. They will have one of the most elaborate booths in the entire arrangement, but the special design is not yet completely decided upon. There have been submitted to the management several very taking plans, one of which is now on display at the Parrott establishment. Mr. W. H. Seale is the designer and has shown considerable talent in this arrangement and effects. Later there will be made a selection of the several designs submitted, and it may be safely assured that the very best will be taken.

MR. MCLELLAN LEAVES

He Did a Great Deal to Start the Street Fair.

Mr. M. A. McClellan of this city, who is one of the substantial citizens of Wichita, and connected with a leading firm, dealers in fancy woolen goods, with headquarters in New York City and branch house in Chicago, will leave tomorrow for an extended business trip through Ohio and Indiana. Mr. McClellan has been a most interested advocate of the Street Fair and his leaving the city before the date fixed for the Street Fair is much regretted. It might be appropriately said that Mr. McClellan was the father of the Street Fair movement among the merchants and it was through his earnest advocacy that the first steps were taken to interest the merchants and other business men.

PRETTY ARCTIC EFFECT

Fulton Clothing Company Had a Novel Display Yesterday.

C. R. Fulton yesterday had one of the most original sidewalk displays that the city has seen in a long time. A large 500 pound cake of ice from the Dold ice plant was placed on a box in front of the store, and solidly imbedded within it were two negligee shirts, facing in opposite directions. The cake was four and a half feet long. Mr. Fulton displayed the garments to a good advantage, which attracted a large number of people all during the time it was on display, from 7 to 11 o'clock. Over the front was this card, also on the inside: "The Coldest Thing in Town." Under this and the shirt was the notice: "Price, One Dollar."

FOOT CUT OFF

Bad Accident to John Wolf a Missourian.

William Wolfe, the Missouri Pacific brakeman who reported to the police here that he was held up a few weeks ago in the alley back of the Red Front Racket, met with a very serious misfortune at Iowa the other day. In an accident he got his foot cut off. It is understood. He had carried accident insurance all along until he met with the holding here, when he let his assessments go, thus invalidating his insurance just at the time he needed it.

WILL CLOSE CONTRACT

Harry Lockwood and Fred Bentley to Get Midway.

H. C. Lockwood, secretary of the street fair, left last night over the Santa Fe for Ohio to close a contract with the manager of the famous Midway, to be exhibited during street fair week in this city.

He will be accompanied by Mr. Fred Bentley. The aggregation to be brought here will require eleven cars to transport the entire show.

Card of Thanks.

Mrs. Chas. M. Jones, through the columns of the Eagle, desires to thank the many friends who assisted in the care of her husband during his fatal sickness and who so kindly ministered at his death and burial.

Mrs. Anna Clark was divorced from her husband, James Clark, yesterday by Judge Dale.

AT Cash Henderson's

Some people may say "the weather is too hot to even think of Blankets," but it's a mistake, because the weather is remarkably cool compared with the "hot prices" we will make on Wool Blankets on Tuesday.

These Blankets are white and colored and are of the same quality that were used in olden times. They were made of extra fine tub-washed Iowa wool by an old-fashioned man at Topeka, Kansas. See them displayed in north window at prices that will actually save you from \$1.50 to \$3 on each pair.

Fifty pairs white and colored, never retailed on earth for less than \$4.50; our price Tuesday per pair, \$2.95.

Fifty pairs 11-4 white and colored Blankets, retailed at no store for less than \$5.25; our price this sale, \$3.60.

Fifty pairs very best quality that are made, 11-4, regular price \$6; our price Tuesday, \$4.50.

This is an opportunity of a life-time and positively can't be had at these prices only on Tuesday. Every pair is larger than the usual run of Blankets.

Our buyer gave instructions before leaving for New York to each department to sell Summer goods regardless of prices. Our prices will do it.

119-121 North Main Street.

Mothers of Boys

Are Reaching Out

for the very points that we have most strongly emphasized this Fall in our new stock of little fellows' wearables, viz.: Mannish patterns cut and trimmed in such a bold way that the girlish effect so often noticed in little fellows'

togs is entirely absent—yet dainty enough for the most boyish boy. Then, too, our prices are surprisingly low. For dependable, 3-piece Vestee Suits they start at \$1.75 the Suit, and the boy gets a handy "scholar's companion" in the bargain.

Herman & Hess

It's Hot

In Time of Peace, Prepare For War

Winter is coming. Get ready. Let us give you an estimate on the cost of fitting your house with steam or hot water apparatus. We recommend hot water, as it gives a more even temperature, is simpler and costs less to operate. We are sole agents for the "Standard" steam and hot water boilers. Call and examine the hot water heater now displayed in our office.

Trade at Fulton's—It Pays.

As the

Fashions Bloom

You can see every petal of newness unfold here. Fall styles overcrowding each other already, and new Fall goods arriving daily—keeping a large force busy unpacking and placing the grandest showing of

Clothing, Hats and Furnishings

Ever before gathered under one roof in the state of Kansas, and we charge you not a cent more because these things are new and novel. You always command the best we can do and without paying a premium, because we are wide-awake. We are now showing the latest

Fall Styles in Hats

—all the new blocks and shades, and our line is the finest in Kansas and equals all other Wichita stocks combined. We are exclusive agents for the celebrated "Knox," the hat king of the world, and have just received the new Fall styles for both ladies and gentlemen. We are showing twenty different styles in Men's "Knox," and have the three most popular styles for Ladies—Princess of Wales, Lenox and Golf, in colors, pearl and blue. We wish to say to Wichita ladies that these are the handsomest, most stylish and fashionable Hats you will have shown this season. Every Hat bears this label and can be had only at Fulton's. There's only one "Knox," but many imitations; get the genuine and have the best.

We are also exclusive agents for the Guyer, Young's and Austin Drew, and are now showing all of their new Fall styles in derbies, fedoras and crushers. Our line of John B. Steison is unequalled in the west. All of our Hats are Union made and bear the Union label.
